

Helping families and NICU support groups not only grow but blossom!

## PreemieCare News

[Read Online](#)

PreemieCare and MOST are excited to announce the addition of our [Medical News](#) webpage.

The page contains summaries, citations, and links to recent medical advances and research findings related to multiple births and premature infants.

Visit the PreemieCare [We've Come a Long Way](#) page and read [Jacob's story](#). Born at 24 weeks and weighing just over one pound, Jacob faces many challenges in the NICU.

## PreemieCare is Collecting Footprints

We are looking for infant footprints taken at birth, during the first year, as well as at 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, and 4<sup>th</sup> birthdays.

The footprints will be used in upcoming issues of MOST's [SUPERTWINS](#) magazine, the PreemieCare or MOST websites, a gestational timeline (22-40 weeks), and other print materials.

Please provide the following information:

- Parents' name
- State
- Email
- Weight
- Birth date
- Gestational age of baby (when footprint) was made

Note: Parents can submit more than one set of footprints per infant and more than one infant's footprints per family.

*By submitting your prints, you give PreemieCare and MOST permission to use them in various formats. Submit footprints via email at [info@PreemieCare.org](mailto:info@PreemieCare.org).*
