## ***RIGHTS & REPRODUCTIONS FORM***

**MOST cannot include copyright photos from professional photographers or studios in *SUPERTWINS* magazine or other online or print publications without consent from the copyright holder.**

Requests for reproducing a copyright image should be sent to the original copyright owner (studio/photographer), and usually must be submitted in advance of use. Purchasing photographic prints does not, by itself, constitute authorization to publish or reproduce, or grant others the rights to reproduce or publish that photo. Copyright must be relinquished by the owner in writing, or written permission to reprint must be obtained to reuse copyright photos.

Each photographer/studio may have their own procedure for requesting reprint permission, so please check with them first. MOST has created this general form to help you submit a request to grant reprint permission for MOST projects. To use this form, please complete the information below and email, mail or fax it to your photographer or studio. If possible, please include a copy of the photo or provide identifying information (order #, pose, account name, date of sitting, etc.):
